Journal of Sports Sciences, 1999, **17**, 997–1002

Subject index

Academic ability, GCSE, multilevel multivariate, physical education, sport knowledge, sport performance, 283
Acceleration, delayed-onset muscle soreness, flurbiprofen, inflammation, 197
Achievement goals, adolescents, motivation, physical education, 213
Acute effect, amateur athletes, elite athletes, explosive strength, vibratory stimulation exercises, 177
Adolescents, motivation, physical education, achievement goals, 213
Adrenaline threshold, arousal, decision making, soccer, 667
Aerobic, anaerobic, athletics, oxygen uptake, 477
Aerodynamics, athletics, bioenergetics, biomechanics, running, sprinting, wind, 325
Alcohol, blood coagulation, exercise, fibrinolysis, plasma fibrinogen, 513
Allometry, oxygen uptake, Tanner staging, young people, 107
Alpha-amylase, immune function, immunoglobulin A, intermittent exercise, saliva, 129
Amateur athletes, elite athletes, explosive strength, vibratory stimulation exercises, acute effect, 177
Anaerobic, athletics, oxygen uptake, aerobic, 477
Anaerobic metabolism, anaerobic threshold, oxygen deficit, 951
Anaerobic threshold, oxygen deficit, anaerobic metabolism, 951
Anxiety, Competitive State Anxiety Inventory-2, EQS, factorial validity, structural equation modelling, 505
Anxiety, effect size, individual zones of optimal functioning model, performance, 873
Arm motion, body roll, breathing, front crawl, 689
Arousal, decision making, soccer, adrenaline threshold, 667
Aspartate aminotransferase, creatine kinase, intermittent exercise, muscle damage, muscle soreness, 387
Assessment, competition, instrument, practice, 697
Athletes, coefficient of variation, correlation, research design, tests, 627
Athletes, hyperlaxity, joints, range of movement, 743
Athletic limitation, chaos, energy, fractal, non-linear dynamics, power law, 467
Athletics, bioenergetics, biomechanics, running, sprinting, wind, aerodynamics, 325
Athletics, oxygen uptake, aerobic, anaerobic, 477
Attitude, exercise adherence, planned behaviour, reasoned action, 269

Balance, coordination, expertise, gymnastics, posture, 615
Baseball, coaching, cognition, decision making, expertise, practice, 357
Bat, finite element, impact, optimal design, 677
Beams, photocells, running, speed, speedometer, timing, 249
Bioenergetics, biomechanics, running, sprinting, wind, aerodynamics, athletics, 325
Biomechanics, running, sprinting, wind, aerodynamics, athletics, bioenergetics, 325
Blood coagulation, exercise, fibrinolysis, plasma fibrinogen, alcohol, 513
Blood lactate, heart rate, pumping, Olympic boardsailing, 135
Body roll, breathing, front crawl, arm motion, 689
Book reviews, 71, 431, 521, 751
Breathing, front crawl, arm motion, body roll, 689
Breathing patterns, dyspnoea, external nasal dilator, nasal splinting, 443
Burnout, intention to terminate, sport officials, stress, 797

Canoeists, cyclists, echocardiography, females, rowers, 633
Cardiovascular risk, diet, exercise, mental health, quality of life, 369
Chaos, energy, fractal, non-linear dynamics, power law, athletic limitation, 467
Coaching, cognition, decision making, expertise, practice, baseball, 357
Coaching decisions, game location, home advantage, ice hockey, 263
Coefficient of variation, correlation, research design, tests, athletes, 627
Cognition, decision making, expertise, practice, baseball, coaching, 357
Cold water immersion, cryotherapy, muscle damage, 231
Collagen, connective tissue, eccentric, muscle damage, 397
Collective efficacy, effort and persistence, group dynamics, 151

Communications to the Annual Conference of the British Association of Sport and Exercise Sciences (BASES), 3
Biomechanics, 3
Interdisciplinary, 11
Kinanthropometry, 17
Physiology, 23
Psychology, 47
Communications to the First World Congress of Science and Medicine in Cricket, 979
Communications to the Fourth International Conference on Sport, Leisure and Ergonomics, 905
Communications to the Fourth World Congress of Science and Football, 807
Physiology and kinanthropometry, 807
Behavioural analysis, 824
Biomechanics and medicine, 833
Communications to the Third Annual Conference of the European College of Sport Science, 527
Biomechanics, 527
Health and medicine, 535
Human performance, 546
Kinanthropometry, 551
Nutrition, 558
Physiology, 566
Psychology and motor control, 594
Competition, instrument, practice, assessment, 697
Competitive state anxiety, performance, self-confidence, 351
Competitive State Anxiety Inventory-2, EQS, factorial validity, structural equation modelling, anxiety, 505
Computer simulation, gymnastics, model, sports biomechanics, vaulting, 313
Confidence intervals, consistency, precision, proportion, resampling, test–retest reliability, 725
Connective tissue, eccentric, muscle damage, collagen, 397
Consistency, precision, proportion, resampling, test–retest reliability, confidence intervals, 725
Coordination, dynamics, perturbations, sport, squash, 297
Coordination, expertise, gymnastics, posture, balance, 615
Correlation, research design, tests, athletes, coefficient of variation, 627
Correspondence analysis, female athletes, perceptions, sport psychologists, 205
Cortisol, immune, immunoglobulin, leucocyte, neutrophil, saliva, soccer, 787
Creatine, long-term supplementation, swimming performance, 853
Creatine kinase, intermittent exercise, muscle damage, muscle soreness, aspartate aminotransferase, 387
Criterion performance, lactate kinetics, taper, training, 239
Cross-country, orienteers, oxygen uptake, running economy, track runners, training, 945
Cryotherapy, muscle damage, cold water immersion, 231
Cycling, measurement techniques, photography, 335
Cyclists, echocardiography, females, rowers, canoeists, 633

Decision making, expertise, practice, baseball, coaching, cognition, 357
Decision making, soccer, adrenaline threshold, arousal, 667
Delayed-onset muscle soreness, flurbiprofen, inflammation, acceleration, 197
Diet, exercise, mental health, quality of life, cardiovascular risk, 369
Discomfort, psychometrics, Rasch analysis, running, 183
Downhill walking, hiking poles, knee joint forces, knee joint moments, load reduction, 969
Dynamics, perturbations, sport, squash, coordination, 297
Dyspnoea, external nasal dilator, nasal splinting, breathing patterns, 443

Eccentric, muscle damage, collagen, connective tissue, 397
Echocardiography, females, rowers, canoeists, cyclists, 633
Editorials, 1, 87, 175, 261, 349, 437, 525, 613, 685, 755, 843, 933
Effect size, individual zones of optimal functioning model, performance, anxiety, 873
Effect size, mastery climate, motivation, performance climate, 643
Effort and persistence, group dynamics, collective efficacy, 151
Elite athletes, explosive strength, vibratory stimulation exercises, acute effect, amateur athletes, 177
Emotions, measurement, model testing, sport, structural equations, 861
Endurance capacity, endurance training, lactate threshold, maximal lactate steady state, 957
Endurance training, lactate threshold, maximal lactate steady state, endurance capacity, 957
Energy, fractal, non-linear dynamics, power law, athletic limitation, chaos, 467
Energy costs, environmental factors, female players, injuries, junior players, nutrition, physiological characteristics, 757
Energy expenditure, exercise intensity, fat metabolism, running, 889
Energy expenditure, exercise intensity, heart rate, rating of perceived exertion, step aerobics, 495

Environmental factors, female players, injuries, junior players, nutrition, physiological characteristics, energy costs, 757
EQS, factorial validity, structural equation modelling, anxiety, Competitive State Anxiety Inventory-2, 505
EQS, questionnaire development, rhythm, validity, 713
Exercise, fibrinolysis, plasma fibrinogen, alcohol, blood coagulation, 513
Exercise, mental health, quality of life, cardiovascular risk, diet, 369
Exercise adherence, planned behaviour, reasoned action, attitude, 269
Exercise-induced hypoxaemia, maximal aerobic power, oxyhaemoglobin, pulse oximetry, 485
Exercise intensity, fat metabolism, running, energy expenditure, 889
Exercise intensity, heart rate, rating of perceived exertion, step aerobics, energy expenditure, 495
Expertise, gymnastics, posture, balance, coordination, 615
Expertise, practice, baseball, coaching, cognition, decision making, 357
Explosive strength, vibratory stimulation exercises, acute effect, amateur athletes, elite athletes, 177
External nasal dilator, nasal splinting, breathing patterns, dyspnoea, 443

Factorial validity, structural equation modelling, anxiety, Competitive State Anxiety Inventory-2, EQS, 505
Fatigue, fluid ingestion, intermittent exercise, soccer skill, 895
Fat metabolism, running, energy expenditure, exercise intensity, 889
Female athletes, perceptions, sport psychologists, correspondence analysis, 205
Female players, injuries, junior players, nutrition, physiological characteristics, energy costs, environmental factors, 757
Females, rowers, canoeists, cyclists, echocardiography, 633
Fibrinolysis, plasma fibrinogen, alcohol, blood coagulation, exercise, 513
Finite element, impact, optimal design, bat, 677
Fluid ingestion, intermittent exercise, soccer skill, fatigue, 895
Flurbiprofen, inflammation, acceleration, delayed-onset muscle soreness, 197
Fractal, non-linear dynamics, power law, athletic limitation, chaos, energy, 467
Front crawl, arm motion, body roll, breathing, 689
Front crawl swimming, propulsive force, three-dimensional kinematic analysis, 97

Game location, home advantage, ice hockey, coaching decisions, 263
GCSE, multilevel multivariate, physical education, sport knowledge, sport performance, academic ability, 283
Group dynamics, collective efficacy, effort and persistence, 151
Gymnastics, model, sports biomechanics, vaulting, computer simulation, 313
Gymnastics, posture, balance, coordination, expertise, 615

Heart rate, lactate, oxygen uptake, rowing ergometry, ventilation, 143
Heart rate, pumping, Olympic boardsailing, blood lactate, 135
Heart rate, rating of perceived exertion, step aerobics, energy expenditure, exercise intensity, 495
Heat storage, pre-cooling, thermal strain, thermoregulation, water immersion, 937
Hiking poles, knee joint forces, knee joint moments, load reduction, downhill walking, 969
Hip, joint torque, jumping, kinematics, kinetics, knee, 449
Home advantage, ice hockey, coaching decisions, game location, 263
Hyperlaxity, joints, range of movement, athletes, 743

Ice hockey, coaching decisions, game location, home advantage, 263
Immune, immunoglobulin, leucocyte, neutrophil, saliva, soccer, cortisol, 787
Immune function, immunoglobulin A, intermittent exercise, saliva, α-amylase, 129
Immunoglobulin, leucocyte, neutrophil, saliva, soccer, cortisol, immune, 787
Immunoglobulin A, intermittent exercise, saliva, α-amylase, immune function, 129
Impact, optimal design, bat, finite element, 677
Individual zones of optimal functioning model, performance, anxiety, effect size, 873
Inflammation, acceleration, delayed-onset muscle soreness, flurbiprofen, 197
Injuries, junior players, nutrition, physiological characteristics, energy costs, environmental factors, female players, 757
Injury, life events, perception, social support, stress, 735
Instrument, practice, assessment, competition, 697
Intention to terminate, sport officials, stress, burnout, 797
Intermittent exercise, muscle damage, muscle soreness, aspartate aminotransferase, creatine kinase, 387
Intermittent exercise, saliva, α-amylase, immune function, immunoglobulin A, 129

Intermittent exercise, soccer skill, fatigue, fluid ingestion, 895

Joints, range of movement, athletes, hyperlaxity, 743
Joint torque, jumping, kinematics, kinetics, knee, hip, 449
Jumping, kinematics, kinetics, knee, hip, joint torque, 449
Junior players, nutrition, physiological characteristics, energy costs, environmental factors, female players, injuries, 757

Kinematics, kinetics, knee, hip, joint torque, jumping, 449
Kinetic energy, optimization, sport biomechanics, triple jump, velocity, 221
Kinetics, knee, hip, joint torque, jumping, kinematics, 449
Knee, hip, joint torque, jumping, kinematics, kinetics, 449
Knee joint forces, knee joint moments, load reduction, downhill walking, hiking poles, 969
Knee joint moments, load reduction, downhill walking, hiking poles, knee joint forces, 969

Lactate, oxygen uptake, rowing ergometry, ventilation, heart rate, 143
Lactate kinetics, taper, training, criterion performance, 239
Lactate threshold, maximal lactate steady state, endurance capacity, endurance training, 957
Lactate threshold, maximal oxygen uptake, rowing, rowing economy, velocity at $\dot{V}O_{2max}$, 845
Learned helplessness, motivation, motor tasks, performance, 403
Leucocyte, neutrophil, saliva, soccer, cortisol, immune, immunoglobulin, 787
Life events, perception, social support, stress, injury, 735
Load reduction, downhill walking, hiking poles, knee joint forces, knee joint moments, 969
Long jump, muscle–tendon unit, stretch–shortening cycle, 159
Long-term supplementation, swimming performance, creatine, 853

Manipulation, mood states, performance profiling, self-perceptions, 115
Mastery climate, motivation, performance climate, effect size, 643
Maximal aerobic power, oxyhaemoglobin, pulse oximetry, exercise-induced hypoxaemia, 485
Maximal lactate steady state, endurance capacity, endurance training, lactate threshold, 957
Maximal oxygen uptake, peak running speed, shuttle run, 413
Maximal oxygen uptake, rowing, rowing economy, velocity at $\dot{V}O_{2max}$, lactate threshold, 845
Measurement, model testing, sport, structural equations, emotions, 861
Measurement techniques, photography, cycling, 335
Mental health, quality of life, cardiovascular risk, diet, exercise, 369
Model, sports biomechanics, vaulting, computer simulation, gymnastics, 313
Model testing, sport, structural equations, emotions, measurement, 861
Mood states, performance profiling, self-perceptions, manipulation, 115
Morphometry, repeatability, soccer, statistics, 89
Motivation, motor tasks, performance, learned helplessness, 403
Motivation, performance climate, effect size, mastery climate, 643
Motivation, physical education, achievement goals, adolescents, 213
Motor tasks, performance, learned helplessness, motivation, 403
Multilevel multivariate, physical education, sport knowledge, sport performance, academic ability, GCSE, 283
Muscle damage, cold water immersion, cryotherapy, 231
Muscle damage, collagen, connective tissue, eccentric, 397
Muscle damage, muscle soreness, aspartate aminotransferase, creatine kinase, intermittent exercise, 387
Muscle soreness, aspartate aminotransferase, creatine kinase, intermittent exercise, muscle damage, 387
Muscle–tendon unit, stretch–shortening cycle, long jump, 159

Nasal splinting, breathing patterns, dyspnoea, external nasal dilator, 443
Neutrophil, saliva, soccer, cortisol, immune, immunoglobulin, leucocyte, 787
Non-linear dynamics, power law, athletic limitation, chaos, energy, fractal, 467
Nutrition, physiological characteristics, energy costs, environmental factors, female players, injuries, junior players, 757

Olympic boardsailing, blood lactate, heart rate, pumping, 135
Optimal design, bat, finite element, impact, 677
Optimization, sport biomechanics, triple jump, velocity, kinetic energy, 221
Orienteers, oxygen uptake, running economy, track runners, training, cross-country, 945
Oxygen deficit, anaerobic metabolism, anaerobic threshold, 951

Oxygen uptake, aerobic, anaerobic, athletics, 477
Oxygen uptake, rowing ergometry, ventilation, heart rate, lactate, 143
Oxygen uptake, running economy, track runners, training, cross-country, orienteers, 945
Oxygen uptake, Tanner staging, young people, allometry, 107
Oxyhaemoglobin, pulse oximetry, exercise-induced hypoxaemia, maximal aerobic power, 485

Peak running speed, shuttle run, maximal oxygen uptake, 413
Perception, social support, stress, injury, life events, 735
Perceptions, sport psychologists, correspondence analysis, female athletes, 205
Performance, anxiety, effect size, individual zones of optimal functioning model, 873
Performance, learned helplessness, motivation, motor tasks, 403
Performance, self-confidence, competitive state anxiety, 351
Performance, social support, tennis, 421
Performance climate, effect size, mastery climate, motivation, 643
Performance profiling, self-perceptions, manipulation, mood states, 115
Perturbations, sport, squash, coordination, dynamics, 297
Photocells, running, speed, speedometer, timing, beams, 249
Photography, cycling, measurement techniques, 335
Physical education, achievement goals, adolescents, motivation, 213
Physical education, sport knowledge, sport performance, academic ability, GCSE, multilevel multivariate, 283
Physiological characteristics, energy costs, environmental factors, female players, injuries, junior players, nutrition, 757
Planned behaviour, reasoned action, attitude, exercise adherence, 269
Plasma fibrinogen, alcohol, blood coagulation, exercise, fibrinolysis, 513
Posture, balance, coordination, expertise, gymnastics, 615
Power law, athletic limitation, chaos, energy, fractal, non-linear dynamics, 467
Practice, assessment, competition, instrument, 697
Practice, baseball, coaching, cognition, decision making, expertise, 357
Precision, proportion, resampling, test–retest reliability, confidence intervals, consistency, 725
Pre-cooling, thermal strain, thermoregulation, water immersion, heat storage, 937
Proportion, resampling, test–retest reliability, confidence intervals, consistency, precision, 725
Propulsive force, three-dimensional kinematic analysis, front crawl swimming, 97
Psychometrics, Rasch analysis, running, discomfort, 183
Pulse oximetry, exercise-induced hypoxaemia, maximal aerobic power, oxyhaemoglobin, 485
Pumping, Olympic boardsailing, blood lactate, heart rate, 135

Quality of life, cardiovascular risk, diet, exercise, mental health, 369
Questionnaire development, rhythm, validity, EQS, 713

Racket, striking implement, tennis, vibration, visual analogue scale, 379
Range of movement, athletes, hyperlaxity, joints, 743
Rasch analysis, running, discomfort, psychometrics, 183
Rating of perceived exertion, step aerobics, energy expenditure, exercise intensity, heart rate, 495
Reasoned action, attitude, exercise adherence, planned behaviour, 269
Repeatability, soccer, statistics, morphometry, 89
Resampling, test–retest reliability, confidence intervals, consistency, precision, proportion, 725
Research design, tests, athletes, coefficient of variation, correlation, 627
Rhythm, validity, EQS, questionnaire development, 713
Rowers, canoeists, cyclists, echocardiography, females, 633
Rowing, rowing economy, velocity at $\dot{V}O_{2max}$, lactate threshold, maximal oxygen uptake, 845
Rowing economy, velocity at $\dot{V}O_{2max}$, lactate threshold, maximal oxygen uptake, rowing, 845
Rowing ergometry, ventilation, heart rate, lactate, oxygen uptake, 143
Running, discomfort, psychometrics, Rasch analysis, 183
Running, energy expenditure, exercise intensity, fat metabolism, 889
Running, speed, speedometer, timing, beams, photocells, 249
Running, sprinting, wind, aerodynamics, athletics, bioenergetics, biomechanics, 325
Running economy, track runners, training, cross-country, orienteers, oxygen uptake, 945

Saliva, α-amylase, immune function, immunoglobulin A, intermittent exercise, 129
Saliva, soccer, cortisol, immune, immunoglobulin, leucocyte, neutrophil, 787
Self-confidence, competitive state anxiety, performance, 351

Self-perceptions, manipulation, mood states, performance profiling, 115
Shuttle run, maximal oxygen uptake, peak running speed, 413
Soccer, adrenaline threshold, arousal, decision making, 667
Soccer, cortisol, immune, immunoglobulin, leucocyte, neutrophil, saliva, 787
Soccer, statistics, morphometry, repeatability, 89
Soccer skill, fatigue, fluid ingestion, intermittent exercise, 895
Social support, stress, injury, life events, perception, 735
Social support, tennis, performance, 421
Speed, speedometer, timing, beams, photocells, running, 249
Speedometer, timing, beams, photocells, running, speed, 249
Sport, squash, coordination, dynamics, perturbations, 297
Sport, structural equations, emotions, measurement, model testing, 861
Sport biomechanics, triple jump, velocity, kinetic energy, optimization, 221
Sports biomechanics, vaulting, computer simulation, gymnastics, model, 313
Sport knowledge, sport performance, academic ability, GCSE, multilevel multivariate, physical education, 283
Sport officials, stress, burnout, intention to terminate, 797
Sport performance, academic ability, GCSE, multilevel multivariate, physical education, sport knowledge, 283
Sport psychologists, correspondence analysis, female athletes, perceptions, 205
Sprinting, wind, aerodynamics, athletics, bioenergetics, biomechanics, running, 325
Squash, coordination, dynamics, perturbations, sport, 297
Statistics, morphometry, repeatability, soccer, 89
Step aerobics, energy expenditure, exercise intensity, heart rate, rating of perceived exertion, 495
Stress, burnout, intention to terminate, sport officials, 797
Stress, injury, life events, perception, social support, 735
Stretch–shortening cycle, long jump, muscle–tendon unit, 159
Striking implement, tennis, vibration, visual analogue scale, racket, 379
Structural equation modelling, anxiety, Competitive State Anxiety Inventory-2, EQS, factorial validity, 505
Structural equations, emotions, measurement, model testing, sport, 861
Swimming performance, creatine, long-term supplementation, 853

Tanner staging, young people, allometry, oxygen uptake, 107
Taper, training, criterion performance, lactate kinetics, 239
Tennis, performance, social support, 421
Tennis, vibration, visual analogue scale, racket, striking implement, 379
Test–retest reliability, confidence intervals, consistency, precision, proportion, resampling, 725
Tests, athletes, coefficient of variation, correlation, research design, 627
Thermal strain, thermoregulation, water immersion, heat storage, pre-cooling, 937
Thermoregulation, water immersion, heat storage, pre-cooling, thermal strain, 937
Three-dimensional kinematic analysis, front crawl swimming, propulsive force, 97
Timing, beams, photocells, running, speed, speedometer, 249
Track runners, training, cross-country, orienteers, oxygen uptake, running economy, 945
Training, criterion performance, lactate kinetics, taper, 239
Training, cross-country, orienteers, oxygen uptake, running economy, track runners, 945
Triple jump, velocity, kinetic energy, optimization, sport biomechanics, 221

Validity, EQS, questionnaire development, rhythm, 713
Vaulting, computer simulation, gymnastics, model, sports biomechanics, 313
Velocity, kinetic energy, optimization, sport biomechanics, triple jump, 221
Velocity at $\dot{V}O_{2max}$, lactate threshold, maximal oxygen uptake, rowing, rowing economy, 845
Ventilation, heart rate, lactate, oxygen uptake, rowing ergometry, 143
Vibration, visual analogue scale, racket, striking implement, tennis, 379
Vibratory stimulation exercises, acute effect, amateur athletes, elite athletes, explosive strength, 177
Visual analogue scale, racket, striking implement, tennis, vibration, 379

Water immersion, heat storage, pre-cooling, thermal strain, thermoregulation, 937
Wind, aerodynamics, athletics, bioenergetics, biomechanics, running, sprinting, 325

Young people, allometry, oxygen uptake, Tanner staging, 107
